DO NOT DISCUSS CLASSIFIED INFORMATION ON UNSECURE TELEPHONES. OFFICIAL DOD TELEPHONES ARE SUBJECT TO MONITORING FOR COMMUNICATIONS SECURITY PURPOSES AT ALL TIMES.

DOD telephones are provided for the transmission of **official** government information only and are subject to communications security monitoring at all times. Use of official DOD telephones constitutes consent to communications security telephone monitoring per DOD Directive 4640.6.

2. THE GOODFELLOW AFB TELEPHONE DIRECTORY:

a. **Using This Directory**. This directory supersedes the **December 2000** and **earlier** Goodfellow AFB Telephone Directories. Earlier directories contain **obsolete** numbers, names, and operational directions that are **not compatible** with the currently installed base telephone system. All earlier directories should be **recycled**.

b. **Directory Format.** Format of the base telephone directory is prescribed by AFI 33-111. Only those items of information, which facilitate the use of the base telephone system are permitted. A serviceable copy of the most current Goodfellow AFB Telephone Directory should be available to each telephone device. Telephone users should use this directory when possible to eliminate excessive information calls that delay base operator response to critical communications needs. Three major sections are used in the directory: General Information, Organizational, and Alphabetic.

(1) The *General Information Section* contains the necessary information and instructions to obtain the best available telephone service. A list of frequently called Defense Switched Network (DSN) and commercial numbers of other DoD facilities numbers are included in pages ix -xiv.

(2) The *Organizational Listing Section* consists of a listing of all units serviced by the base telephone system. Each unit is identified by official title, office symbol, and telephone extension assigned.

(3) The *Alphabetic Listing Section* consists of an alphabetical listing of all principal activities by base function, mission, or acronym. Some offices are listed under various titles. Each title is identified by its supervising organization, office symbol, building number, and telephone number assigned.

c. **Directory Changes.** The Goodfellow AFB telephone directory is compiled from listings furnished by organizations and individuals via their Telephone Control Officers (TCO). TCOs should keep the telephone directory clerk apprised of all changes in telephone numbers, building numbers, and room numbers. Additions, deletions, or corrections must be submitted as they occur. *The directory can only be as accurate as the information furnished.*

d. **Distribution.** TCOs are responsible for the distribution of base and local telephone directories in their area of responsibility. They establish the requirements for the number of directories needed. Request telephone directories through your unit's TCO or through your Customer Account Representative (CAR).

3. PROMOTING GOOD TELEPHONE SERVICE:

Switchboard Operator Service Reports. Switchboard operators are instructed to be courteous. Similar consideration on the part of subscribers is also expected. Reporting an operator's outstanding service (which is greatly appreciated) should be addressed to the Chief Operator through the 17th Communications Squadron Commander. In case of unsatisfactory service, identify yourself, obtain the operator's number, and report the incident to the Chief Operator at extension 654-3590 during duty hours. **Positive** and **negative** feedback may also be addressed using the **GAFB Form 98, 17 CS Customer Satisfaction Survey**. Telephone users must not admonish or attempt to engage the base operator in idle conversation. Upon request, operators are required to give only their operator number. Disclosure of name or other related information is not allowed.

4. USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS:

Personal calls that must be made during duty hours over the commercial local network are authorized if the calls are consistent with the following:

a. They do not adversely affect the performance of official duties by employees or the employees' organization.

b. They are of reasonable duration and frequency.

c. To place personal calling card, collect, and third number billing calls from Goodfellow AFB, dial from a commercial number, a pay phone, or direct dial your long distance carrier's toll free number.

d. **TDY Off-net Calling.** When requesting TDY off-net calling to your home, you should:

(1) Inform the base operator you are TDY from GoodfellowAFB.

(2) Identify yourself by name, rank, organization, and office symbol.

(3) We encourage you to place your calls from 1800 to 0600 so as not to interfere with official calls during duty hours. Emergency calls are exempt from any time restriction.

e. **Morale Calls.** Air Force Policy permits the use of DSN for Health, Morale and Welfare (HMW) calls for active duty members and Air Force civilians at ***isolated or remote locations,*** or TDY for more than 14 days, regardless of commercial telephone availability.

(1) The morale call should be placed through the GAFB operator.

(2) Callers should state the purpose of the call (morale call/Hearts Apart) and identify the originating location.

(3) Morale calls are placed at ROUTINE precedence, and must not incur a toll charge to or from the base. Active duty members are limited to one 15 minute call per week.

(4) Morale calls will be processed with on-duty use restriction when official traffic permits, and must not interfere with operational requirements. Morale calls are subject to automatic preemption by higher precedence calls.

(5) Immediate family members of active duty members in unaccompanied status or on extended TDY may place outgoing morale calls as a part of the Family Support Center's (FSC) **"Hearts Apart"** program. Family members must register with the FSC for authorization to place Hearts Apart morale calls. Family members are limited to one 15-minute call per week. The same provisions as outlined in the previous paragraphs apply.

(6) Family members are encouraged to place their Hearts Apart calls after GAFB's duty hours.

f. **Morale Video Phone Calls.** Air Force policy permits spouses of personnel who are dislocated for more than 30 days to make calls via video phone. For more information, contact the Family Service Readiness NCO at 654-3893.

g. **Western Union Telegrams.** Western Union telegrams may be telephoned directly to the Western Union Telegraph Company, at 1-800-325-6000, from any pay station or commercial phone located on base. Goodfellow AFB Federal Credit Union and the Base Exchange also provide Western Union services. Transactions at the Base Exchange must be made in person at the cashier's cage. The Credit Union performs this service for their members, daily, between the hours of 0900 - 1630.

5. <u>RESPONSIBILITY OF TELEPHONE USERS</u>: The base telephone system is Government owned and maintained. Subscribers are responsible for the proper use and care of installed telephones and associated equipment.

(a) Don't alter, move, or affix devices to your telephone. Ask your TCO to submit an AF Form 3215, *C-4 Systems Requirements Document*, whenever you need to relocate or alter telephone equipment. Make your request well in advance of the date by which you would like the equipment moved. Submit the form to 17 CS/SCX, 654-3699.

(b) Don't attempt to fix your telephone. Call the 17 CS Help Desk, by dialing 123, for telephone repair.

(c) Don't attempt to clean the telephone instruments using any type of spray cleaner. It will destroy integral parts of your telephone. If a phone needs cleaning, dampen a cloth with a mild cleaner and rub lightly until clean.

a. **Use Of Improper Language.** Federal and State statutes **prohibit** the use of profane or obscene language over the telephone. It is a misdemeanor for anyone to use the telephone as a means of conveying obscene or indecent language or to make anonymous calls to threaten, annoy, abuse, embarrass or harass. It is the responsibility of all users to report any such activity to their security section. Failure to observe the law will constitute cause for disconnecting telephone service.

6. <u>COMMUNICATIONS SECURITY (COMSEC)</u>: Lax security concerning the telephone can range from leaving the telephone off hook, saying more than what is needed to be said, or attempting to "talk around" classified information.

a. *Telephones are not secure.* Classified information will not be discussed at any time during a telephone conversation.

b. Personnel who make unauthorized disclosures of classified or sensitive official defense information during the use of the telephone are subject to disciplinary action.

c. Every telephone must have a DD Form 2056, *Consent to Telephone Monitoring,* decal affixed to it. This decal warns people not to discuss classified information on the telephone, and also serves as legal authority for monitoring telephone conversations.

d. Do not transmit classified information over unsecured telecommunications systems. All DOD telecommunication devices are subject to monitoring. Using DOD telecommunication systems constitutes consent to monitoring.

e. For assistance with COMSEC issues, please contact 17 CS/SCBSC, at extension 654-5951.

7. STU-III (SECURE TELEPHONE UNIT): To ensure the security of conversations involving classified information, use a *Secure Telephone Unit - Third Generation (STU-III or STE).* STU-III's are part of a worldwide network of encrypted secure voice communications for your organization, other DoD activities, and certain non-DoD offices. They can be used to discuss classified, sensitive but unclassified (SBU), or unclassified information. Commanders control the requirement for STU-IIIs. TDY personnel not on an access list but having a need to use the system for classified or SBU calls must contact their sponsoring organization.

8. REQUESTS FOR TELEPHONE SERVICE:

a. **Official Telephone Service.** Official requests for telephone services (installations, moves, and special features, and equipment) will be submitted on AF Form 3215, *C-4 Systems Requirements Document*, through TCOs to Architecture & Integration, 17 CS/SCX. 4-3699.

b. **Unofficial Commercial Telephone Service.** Dormitory, base housing, and private quarters residents may obtain commercial (private) telephone service by contacting GTE at 1-800-483-4400 (toll free) or visit/call the GTE Phone Mart, 2017 Knickerbocker Road, at 944-7492. Installation fees, monthly rental and toll charges will be borne by the individual.

9. MINIMIZE: MINIMIZE is a condition imposed by commanders to reduce the volume of electrical communications (both message and telephone voice traffic) during exercises or periods of emergency/crisis. It may be imposed DoD-wide, Air Force-wide, Command-wide, or for given countries, states, or areas as conditions warrant. During MINIMIZE conditions, vital and relevant electrical communications must not be delayed, and routine traffic must be drastically reduced.

a. MINIMIZE applies to **all** DoD communications systems, including originators of voice and message traffic.

b. When MINIMIZE is imposed, users of DoD electrical communications facilities must determine that:

(1) The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.

(2) Electrical transmission is the only way to get information to the addressee in sufficient time to accomplish its purpose.

c. Alternate means of communications such as the US Mail, courier, or messenger should be used versus electrical means when MINIMIZE is imposed.

d. Unit TCOs will approve transmission of only those calls and messages deemed "Mission Essential."

e. Base operators will challenge all calls to MINIMIZE imposed locations with the phrase, "Is your call MINIMIZE considered?" They will process only those calls using the aforementioned criteria.

(Authority: Allied Communications Publication (ACP) 121 (F), Communications Instructions - General)

10. REPORTING NUISANCE CALLS:

a. Nuisance calls should be immediately reported to the Law Enforcement Desk Sergeant at 654-3504. Nuisance calls include those in which the caller uses malicious, indecent, abusive, threatening, obscene, or lewd language with the intent to offend, harass, or harm others. Military and DOD civilian employees who make nuisance calls are subject to disciplinary actions as defined by federal and state statutes, the Uniformed Code of Military Justice, and/or AF instructions. Requests for monitoring or tracing of nuisance telephone calls should be referred to the Law Enforcement Desk Sergeant.

b. Request the identification of the caller. When a caller asks, "Who is this?" ask instead, "What number did you dial?" or "With whom do you wish to speak?" If the caller remains silent after you answer, or makes any derogatory remarks, **hang up**!.

c. For threatening or harassing phone calls, see paragraph 23 for Malicious call hold.

11. EMERGENCIES: The Air Force standard emergency reporting number that handles all types of fire, police, and medical emergencies on Goodfellow AFB is **911**.

a. STAY CALM and provide the 911 operator with the building number, your name, the phone number from which you are calling, and the nature of the emergency. Unless you are in imminent danger, do not hang up until the 911 operator instructs you to do so.

b. The 911 operator will ask you several questions about the emergency. Answer them to the best of your ability. The information you provide is essential and will not delay the response to your emergency.

c. **All telephones on Goodfellow AFB have 911 emergency reporting capability.**

12. REPORTING BOMB THREAT CALLS: Bomb threats must always be initially considered real and must be responded to properly and immediately. All telephone users should be aware of prescribed bomb threat reaction procedures and should have an AF Form 440, *Bomb Threat Aid*, next to their phone. The following suggestions are made for response to bomb threats.

a. **Do NOT hang up!** Try to keep the caller on the line, and signal someone else to call 911 to initiate a trace action. If no one is available, **Do NOT hang up**, use another phone to call 911 and also notify the Law Enforcement Desk Sergeant at 4-3504.

b. Stay calm and obtain as much information as possible by encouraging the caller to disclose specific information. Immediately make notes of all occurrences, mannerisms, quotes, and times while referring to the following or an AF Form 440, *Bomb Threat Aid*, located near the telephone.

13. DIRECTORY ASSISTANCE (INFO) CALLS: .This service is for **official use only**.

a. Off-Base Directory Assistance. The base operator handles local off-base and long distance directory assistance information calls. **Calls for off-base/local information are not free.** Contact your TCO for authorization to use the organization's billing control number. To minimize the cost of these calls, look up commercial numbers in a local telephone directory whenever possible.

b. Information Toll-Free. We encourage telephone subscribers to use this service prior to placing official toll calls. Dial 99+1+800+555-1212 to obtain information for toll-free numbers of commercial businesses that offer incoming long distance toll calls at no charge to the user. To place the call, dial 99+1+ toll free number.

14. FACSIMILE (FAX) TRANSMISSIONS:

a. DSN may be used to transmit FAX messages. FAX equipment must have the capability to disconnect from the DSN line within 1 minute after cessation of the FAX transmission, or upon circuit preemption. DSN off-netting may be used to transmit FAX messages without compromising the quality of the transmission.

b. **FAX Transmission Procedures:**

(1) Complete an AF Form 3535, *Facsimile Electro Mail Transmittal.*

(2) Place the transmittal form and all sheets to be transmitted face down into the paper feeder of the FAX machine.

NOTE: The FAX machine copies only one side of each page. If you have two-sided pages to transmit, make copies of the second side before proceeding.

(3) Pick up the FAX machine telephone receiver and dial "0", give the operator all the pertinent information for placing the call, or if your phone has the capability, dial the destination FAX telephone number.

(4) Wait for the FAX "tone," then push the start/send button (usually a green button).

(5) Hang up the phone; transmission will begin.

(6) When the transmission is complete, you will hear several FAX tones indicating the transmission was received at the destination location, and/or receive a visual display message indicating the same.

(7) If you are having difficulties, please take the time to ensure the number and area code you are calling is correct, and that the number is a FAX number, not voice-only line. Report transmission problems relating to telephone lines to the 17 CS Help Desk extension 123. Problems with your FAX machine should be referred to your equipment custodian.

15. CONFERENCE CALLS: All telephones on Goodfellow AFB, with the exception of some special feature phones are provided operator assist and direct user three-party conference call capability. Procedures are as follows:

a. **Three-Way Conference**. To add a third party to a call already in progress, follow the same procedures that you used for the Consultation Hold, but when you have reached the third party, briefly press the hooks switch ONCE. A three-way conversation will be initiated.

NOTE: If during your attempt to achieve Consultation Hold or a Three-way Conference, the third party's number is busy or doesn't answer, briefly press and release the hook switch TWICE to return to your original party.

b. **Meet-Me Conference (Up to 30 parties).** A meet-me conference must be booked in advance. To book a meet-me conference, dial 654-3590 and request an assigned number to be dialed at a designated date and time. Each conferee is automatically added to the conference when the designated conference number is dialed. The first conferee will hear a dial tone until a second conferee enters the conference. Three Meet-Me conferences may be utilized at the same time.

c. **Operator Assisted Conference.** The operator assisted conference allows a base operator to establish a connection with up to 30 parties. Dial "0" and request the base operator to add the requested parties. Be sure all information is readily available before requesting the conference and take time zones into consideration. Conference calls consisting exclusively of DSN numbers should be placed through the DSN assistance operator by direct dialing DSN 231-1311.

d. **Video Teleconferencing.** You may set up meetings and conferences with your colleagues throughout the Department of Defense by using the 17 CS Video Teleconferencing Center (VTC). To inquire about video conferencing or to schedule a conference, contact 17 CS/SCX, at 654-3699.

16. OFFICIAL LONG DISTANCE CALLS:

a. Official long distance calls should be placed using the most economical means. The order of preference from the least to the most costly to the Government is as follows:

(1) Defense Switched Network (DSN) for all calls to DoD activities. This method will be attempted before considering the use of FTS or commercial lines. Dial 94 + the seven or ten digit number.

(2) DSN off-netting. Using DSN, call a base operator, request "official, off-net" assistance and provide a commercial telephone number. **Note**: The decision to off-net calls rests with the called installation's switchboard.

(3) Toll-free service, including 800, 822, 833, 844 855, 866, 877, and 888 numbers. Toll free number information may be obtained by dialing 99+1 (800) 555 1212.

(4) If calls cannot be placed via DSN or Toll Free means, FTS may be used.

17. PUBLIC COIN AND CREDIT CARD PHONES: There are public coin and credit card phones located in convenient places throughout the base. The locations are posted on the inside back cover of this directory.

18. FIRE REPORTING: Dial **911** to report a fire.

19. PERSONAL LONG DISTANCE CALLS: Personal long distance calls can be made from any private telephone located in government quarters, numerous coin and credit card phones located on base. (See inside back cover for on base public coin and credit card phones locations.) Rates for personal calls are based on rates assessed by the commercial telephone company. Instructions for making these calls from private phones in quarters may be found in the commercial telephone directory provided by the telephone company. Coin and credit card phones have instructions posted at each telephone.

20. DEFENSE SWITCHED NETWORK (DSN) SYSTEM:

a. The DSN network is the principle long-haul voice communications network providing unsecured direct distance service worldwide through a system of Government-owned and leased automatic switching facilities. The purpose of DSN is to handle command and control, operations, intelligence, logistics, diplomatic, and administrative traffic. All DSN calls are placed at ROUTINE, PRIORITY, or IMMEDIATE precedence. DSN access is direct-dial at routine precedence. Access to DSN at PRIORITY or higher precedence requires base operator-assistance.

b. To ensure that high precedence users have immediate access to DSN lines, a telephone communications precedence system has been developed and approved by the Joint Chiefs of Staff (JCS). This precedence system will be used when calls are placed over DSN and other voice communications facilities of the Department of Defense. Since effectiveness of the system depends on cooperation on the part of persons authorized to use it, users must be familiar with the purpose to be served by each level of precedence category and the type of calls, which may be assigned to respective precedence.

(1) **ROUTINE.** Precedence designation applied to those official government communications, which require rapid transmission by telephonic means but do not require preferential handling.

(2) **PRIORITY.** Precedence reserved for telephone calls requiring expeditious action by called parties and/or furnishing essential information for the conduct of government operations.

(3) **IMMEDIATE.** Precedence reserved generally for telephone calls pertaining to:

(a) Situations which gravely affect the security of national and allied forces.
(b) Reconstitution of forces in a post-attack period
(c) Intelligence essential to national security.
(d) Implementation of any Federal Government actions essential to national survival.
(e) Situations which gravely affect the internal security of the United States.
(f) Civil Defense actions concerning our population and their survival.
(g) Disasters or events of extensive seriousness having an immediate and detrimental effect on the welfare of the population.
(h) Vital information having an immediate effect on aircraft, spacecraft, or missile operations.

21. NETWORK CAPABILITY:

a. To call off base from Goodfellow AFB, direct dial service is available from base extensions programmed with that capability.

b. To direct dial any local number in the San Angelo area, dial 99 + 7-digit number. You will not hear a dial tone after dialing 99.

c. To direct dial on the DSN network, dial 94 + 7-digit or 10 digit number.

d. To call Goodfellow AFB numbers from a local off-base telephone, dial "654" plus the 4-digit extension number.

e. To call Goodfellow AFB from another installation via DSN, dial "477" plus the 4-digit extension number.

f. The following prefixes can be dialed from Goodfellow AFB and do not incur long distance charges:

212
213
223
224
226
234
245
255-CHRISTOVAL
277

896-CHRISTOVAL
942
944
947
949

22. USE OF DSN: Users are responsible for the proper use and control of DSN lines. Cooperation will ensure better service and a higher completion rate of official DSN calls, particularly those to international locations.

a. DSN is authorized for official communications only.

b. DSN is restricted to only those official calls that are essential, requiring a timeliness that cannot be obtained by other means, and would stand the scrutiny afforded a commercial toll call.

c. Precedence level will be consistent with the subject matter of the call as established. See paragraph 20.

(1) DSN users will use the lowest precedence consistent with the operational mission or necessity for each call placed. Do not request or use a precedence higher than required.

(2) The assignment or use of a precedence designator based solely on rank or duty position is strictly prohibited.

d. Voice and facsimile service on DSN will normally not exceed a continuous transmission time of 15 minutes during duty hours.

e. Off-netting calls into the commercial system at a distant PBX/PABX is encouraged where off-net dialing has been previously approved by the local authorities controlling the switchboard.

f. Calls will be limited to the minimum time required to accomplish official business, normally not to exceed 15 minutes.

G. Calls of all DSN users, except those of certain National Command Authorities and Unified and Specified Commanders, are subject to preemption by calls of higher precedence. Preemption is the act of seizing the line from a lower precedence call to support higher precedence calls, and is automatically and randomly executed in the telephone switching equipment.

h. DSN is for official use only and is subject to authorized telephone monitoring. (AFI 33-219).

23. WORLD TIME ZONE DIFFERENCE CALCULATING:

Goodfellow AFB is in Central Daylight Savings Time from April to October and in Central Standard Time from October to April. Universal Coordinated Time (UCT) is known as "Zulu" time. Official timepiece adjustments or "time hacks" may be made by calling the DSN number 762-1401. A time zone chart is located on page xv of the general information section.

24. TIME DIFFERENCES (CST) CENTRAL STANDARD TIMES:

ENGLAND	+6 hours
GERMANY	+7 hours
GREECE	+8 hours
GUAM	+16 hours
HAWAII	-4 hours
ICELAND	+5 hours
JAPAN	+15 hours
KOREA	+15 hours
OKINAWA	+15 hours
PANAMA	+1hour
PERSIAN GULF	+8 hours
PHILIPPINES	+15 hours
SPAIN	+7 hours
TURKEY	+9 hours
ALASKA	-4 hours
AUSTRALIA	+15 hours
AZORES	+6 hours
SOUTHWEST ASIA	+9 hours

{Global Time Zone Chart is no longer included in this directory}

25. TELEPHONE FEATURES LIST:

CALL PICK UP. Used to answer calls ringing a telephone (other than your own) within your area.
1. Lift handset and wait for dial tone.
2. Dial *76.

RING AGAIN. Monitors a busy telephone line, alerting you automatically when the line becomes free.
1. Tap telephone hook switch when a busy tone is received.
2. Wait for dial tone.
3. Dial *81
